

HEY, OBAMA!

Tune: Oh, Susanna, new words by Jack Lucero Fleck

D A7
We are telling you, Obama, fossil fuels have got to go,

D A7 D
And your children and their mama, want you to just say no.

D A7
Now with storms and floods there's too much rain, and then it is too dry,

D A7 D
And the sun's so hot it's just insane, Obama, we will fry!

G D A7
Hey, Obama, we know that you can see,

D A7 D
That we don't need any tar sands oil, we need clean energy.

Up in Canada, they kill the trees, and poison all the lakes,
They are killing all the birds and bees, so let's put on the brakes.
Oh they say the pipes will never leak, but who is kidding who?
'Cause one broke in Arkansas last week, last year Ka-la-ma-zoo.

Hey Obama... ..

Now the pipeline brings this tar sands gunk down to our Gulf resorts,
The refineries put out more junk, and the oil goes to exports.
But the biggest problem, sad but true, comes when it's burned to heck,
'Cause that makes a lot of CO2, and leaves a climate wreck.

Hey Obama... ..
