

STOP-KEYSTONE SONG

(Yellow Rose of Texas)

words by Bonnie Lockhart and Nancy Schimmel

**Valero Oil of Texas
Is not the oil for me
They want to pump the tar sands
To their refinery
But pumping gunk from Canada
To the Gulf of Mexico
Is a pipeline to disaster
So to Keystone we say “No!”**

**Valero Oil of Texas
You lobby for the pipe
You talk about employment
But we know that’s just hype.
We’d rather create good jobs
And a strong economy:
Stop subsidizing oil
And fund cleaner energy**

**Valero Oil of Texas
It’s time to get a clue
Your oil thing is over,
Quit belching CO2
That oil is just too yucky
And the pipeline risk too high
Leave the tar sands in Alberta
And kiss fossil fuel goodbye**
