

This Is Our College

(You Are My Sunshine)

Betsy Rose 2011

Chorus

**This is our college, a public college,
We study hard and we pay our way,
But costs are rising, and hope is dying,
They are taking | our future | away.
The other night we slept on the Plaza
We assembled peacefully,
The police beat us, and pepper sprayed us,
Does this look like democracy?**

Chorus

**We'll tell the Regents, we'll tell the Chancellors,
We'll tell the whole world loud and clear,
We're standing up for our education,
And our future is starting right here.**

Chorus

**End with
They can't take our future away.**
