

WHAT SHALL WE DO WITH A DRUNKEN SAILOR

Stephen Zunes remembered the Exxon Valdez verse from somewhere and Nancy Schimmel wrote the rest.

What shall we do with a drunken sailor? (3x)

Earlie in the morning?

Make him the skipper of the Exxon Valdez (3x)

Earlie in the morning.

Way up the carbon rises (3x)

Earlie in the morning.

What shall we do with the tar sands crude? (3x)

Earlie in the morning?

Put it on a train that runs through Berkeley...

Way up the carbon rises...

What shall we do with the fracking water...

Pump it underground and cause an earthquake...

Way up the carbon rises...

What shall we do with the toxic coal ash?..

Dam it up and spill it in the river...

Way up the carbon rises...

What shall we do with the carbon profits...

Buy a yacht and a politician...
