

# **Which Side Are You On**

By Florence Reese, new lyrics by Monique Doryland, Leslie Hassberg, Betsy Rose, Susan Berger

**Kids are gunned down in their schools  
And we are horrified,  
Now all their friends are rising up; We're standing by their side.**

**We need to change the gun laws,  
And change our culture, too,  
When violence is glorified,  
You know what some will do.**

**It started when we stole this land,  
With guns and genocide,  
While our New Jim Crow system  
Keeps violence alive.**

**The folks who make and sell the guns,  
Their profits are obscene,  
They buy our politicians and  
Promote their terror scheme.**

**The NRA is powerful and  
Fox News spreads their lies,  
We're calling out their hate and greed,  
It's time to organize!**
