

Solar Carol (Many hands created this over a long period of time. This version edited by Leslie Hassberg of Occupella PDX)

See the sun, how bright it shines on the nations of the earth;
All who share this thing called life celebrate each day's rebirth.

Chorus:

So-o-o-o-lar power, inexpensive energy (2x).

Join the sun in jubilee, celebrate each day's rebirth.
Solar panels, rooftop high warm our homes, but not the earth.

Sister wind, we've heard on high, sweetly singing o'er the plain;
And the windmills in reply, echo back their glad refrain.

Climate change is here and now, stop the drilling, stop the trains!
So our children's children will enjoy a healthy earth again.
